Hi Jim. Looking at Austin's and my schedule for the remainder of the week, there is no way either of us can cram in a "pop-up" meeting on this short notice. My suggestion is we let it roll the way it goes on Tuesday. You have a clear understanding of our positions, concerns and willingness to participate in candid conversations on a conceptual basis at this point. As "lead" on this, hopefully you have communicated that clearly to the others attending next Tuesday or we will be wasting valuable time rehashing what everyone should already know. As far as the Tuesday meeting and your hope that we can attend, we both believe we should be able to. We have a previously scheduled meeting late morning and early afternoon that day but shouldn't be late much, if any. See you Tuesday...

Pat

Pat and Austin, all parties have confirmed that they will attend the meeting at EDawn next Tuesday at 3:30 (Mike Kazmierski, Proctor Hug, Rob Winkel, Doug Ford, and Dolan Ranch).

Mike Kazmierski has also just informed me that Cory Hunt, Deputy Director of the Governor's office and Chris Reilly of Tesla will also be attending this meeting, which is welcomed. I hope it works out in your schedules to attend!!

Attached is an undated map which cleaned up the previous map that I emailed to you. The

Attached is an updated map, which cleaned up the previous map that I emailed to you. The "Proposed Utility/Road Alignment" was placed in this map for our discussion on how we best attempt to get water and possibly natural gas to the Highlands area. During this visit to Reno, I will be meeting with the agencies regarding these and other infrastructure to discuss and determine process and strategies to achieve these goals and others.

I arrive in Reno tomorrow around 2 pm and would like to meet with the both of you anytime after 3 pm in Virginia City to further discuss this meeting and to make sure we are all on the same page on what we are trying to accomplish and the process that we should pursue. I do not want to misrepresent anything regarding Storey County, but would like all of us to have a good and clear understanding of what each of us want to accomplish in the meeting next Tuesday. If tomorrow does not work for you, maybe Friday afternoon?? I think we have a wonderful opportunity to create and implement a regional strategy that meets or exceeds the parties previous expectations.

Rob Winkel would like to accompany me tomorrow or Friday to meet with you in Virginia City if that is OK with you. I've known Rob a long time and he is a man of integrity and would like to be involved in this discussion. You're call on Rob attending and if you the time and availability.

I think the possibilities we discussed for Storey County and the others are very exciting and, at the moment, appears supportable in the the Governor's office and the business community (which is why Mike invited Cory and Chris).

I am going to be in and out today, but will attempt to call either of you this afternoon.

Jim
